

Title: How do you access cash in your locality?

Participant 1: Well, now I'm up here today, I'll take some out because I am a cash person. I use...I try to use cash for everything.

Participant 2: I have a small business, so I have a bit of cash coming in, not an awful lot, but that's basically how I get it, the hole in the wall.

Participant 3: So I live, I live close to a post office and it's very handy so usually the post office or the ATM or even through a cash back, you know, from retailers.

Participant 4: I don't really take out cash, I use my phone.

Participant 5: I don't use cash I never use cash, but if I was to use cash, I would use a local ATM but that's very, very, very rare.

Participant 6: Yeah, I live in town center, so I have tons of banks around and I can easily go there and withdraw.

Participant 7: Cash, ATMs, but like, you know, these ones here, there used to be one there they're kind of disappearing at a rapid rate.

Participant 8: I carry very little cash, like neither of us carry that much cash, we're both paid through the bank so it's usually just through ATMs and stuff but a lot of the time, we just use cards.

Participant 9: Machine, that's where I'm going, up to use the machine.
