

Additional Assurance Requirements

2026 contribution period Additional Assurance (“AA”)

The objective of this document is to clarify to National Resolution Authorities (“NRAs”) and institutions the content and form of the additional assurance requirements (“AAR”) on data collected for the 2026 contribution period, along with restatements of past cycles, if any, performed during that contribution period.

This document is divided into the following sections:

1. Introduction

2. Agreed-upon procedures (“AUP”)

AUPs shall include the following annexes to the AUP:

ANNEX I – Procedures performed and description of factual findings

ANNEX II – Data Reporting Form (“DRF”) of the institution

1. Introduction

In order to enhance the comparability of the reported information and the effectiveness of processing the information received, some institutions are requested to provide additional assurance on data to be used in the eventual calculation and collection of 2026 *ex-ante* contributions and of restatements.

- **Scope of institutions:** requesting additional assurance from all contributing institutions that are part of a group that falls under direct ECB supervision, unless it is subject (only) to the lump-sum payment¹ and has not asked for the alternative contribution².
- **Agreed-upon procedures (AUP):** institutions in scope must provide confirmation by an auditor on the specific data points indicated. *N.B.: The option to use a sign-off by the executive body on the full template is not possible (both for the current cycle and for restatements).*
- **Scope of AUP:** the scope of the AUP includes covered deposits (as a deduction), derivative adjustment, intragroup, IPS and promotional loans-related liabilities that qualify for deduction in accordance with Article 5(1) of Commission Delegated Regulation (EU) 2015/63 (“the DR”), and own funds (*the latter data point only for institutions that benefit from a waiver from the competent authority for own funds reporting at individual level*).
- **Discretion of the NRAs:** NRAs are empowered with the discretion to extend the scope of institutions and the data covered by the AUP. The NRA should afterwards inform the SRB if this discretion is used.
- **Restatements:** The AAR apply to restatements of data points in scope of AUP. *By way of exception*, a (new) AUP report from an auditor on the restated data point is not required under the following conditions: (i) the restatement is due following an auditor’s report in a previous cycle where the erroneous data point was identified, and (ii) the same auditor’s report expressly mentioned the new value that should be resubmitted for the purpose of calculating the restatement, and (iii) this report is attached to the restated DRF.

In order to ensure that a harmonised approach is taken in all jurisdictions, a template for the engagements to perform AUP regarding financial information is provided in Annex I (*‘ANNEX I – Procedures performed and description of factual findings’*) of this document.

This Template is to be used by institutions in the Additional Assurance scope and therefore subject to confirmation by an auditor (i.e. AUP). **This document is to be included in the reports of the auditor on the AUP as annex I while the data reporting form (DRF) of the institutions is to be attached as annex II.** In addition:

- **Signature and format:** Digital documents and (EU) Qualified Electronic Signature are accepted. The AUP is expected to be in PDF format³.
- **Naming convention⁴:** the following naming convention shall be used for the AUP: ‘MFI_LEI_AUP_2026’ for the 2026 cycle AUP or ‘MFI_LEI_AUP_YEAR’ in case of restatement.

¹ In accordance with Commission Delegated Regulation (EU) 2015/63 articles 10(1)-(6).

² In accordance with Commission Delegated Regulation (EU) 2015/63 articles 10(7).

³ Use the Print to PDF option and do not send scanned documents.

⁴ MFI refers to MFI Country Code (2 letter ISO code of country where the institution is authorised); LEI refers to Legal Entity Identifier code of the institution.

The application of the 2026 additional assurance requirements is conditional on the actual use by the SRB of the 2026 data set for the calculation and collection of SRF contributions. Institutions should start to prepare for the submission of the additional assurance documents for the 2026 DRF upon notification by the NRA that the condition is fulfilled. Institutions should submit the 2026 additional assurance documents to the NRAs **within the deadline defined by the NRA**.

Institutions should submit the 2026 AUP at the latest by 15 January 2026 for the DRFs submitted in relation to restatements for the 2016-2023 contribution periods, if any.

The NRAs will retain these documents but should provide them to the SRB upon request.

2. Agreed-upon procedures

This section presents the scope of the AUP engagement (2.1) and describes the engagement letter (2.2) and the report of factual findings (2.3).

2.1 Scope of the AUP engagement

Annex I of this document (*which is also Annex I of the AUP*) defines the scope of the engagement of the AUP. The procedures are to be performed by an external auditor.

NRAs may decide to adapt or extend some of the procedures due to particularities in their jurisdiction. Such adaptations by NRAs could include, but are not limited to:

- If there are no Institutional Protection Schemes (IPS) in the jurisdiction, the NRA may choose to eliminate procedure 5 from the AUP.
- If, in the jurisdiction, derivatives have to be held on-balance sheet, the NRA may choose under “Procedures 3: Derivative adjustment” to take out the reference to “2C3” and instead introduce the following procedure: “Verify that field “2C3” is equal to 0”.
- Due to differences in jurisdictions, the SRB did not specify “underlying documents” to be used during the procedures. Therefore, the NRAs may replace “underlying documents” with the most appropriate reference, e.g. financial statements, balance sheet, derivative sub-ledger and etc.

NRAs may further extend the scope of the AUP, which could include procedures regarding other deductions: amount of qualifying liabilities related to clearing activities, central securities depository and arising by virtue of holding client assets or client money.

The NRAs indicate in the annual overview to the SRB when the template was modified.

2.2 Engagement Letter

An Engagement Letter is used by the institution and the auditor in order to define an engagement by listing all of the procedures to be performed by the auditor (see section 2.1) and to agree that the Report of Factual Findings (see section 2.3) will be distributed only to the relevant third parties (in this case the SRB and the appropriate NRA).

The SRB has not created a template for the Engagement Letter to be signed between the institution and the auditor. Nevertheless, it is presumed that the auditor and the institution will follow the illustrated example in

Appendix 1 of the International Standard on Related Services (ISRS) 4400 (revised) on Engagement to Perform Agreed-upon Procedures Regarding Financial Information.

2.3 Report of Factual Findings

The Report of Factual Findings is the result of the agreed-upon procedure and describes in sufficient detail to the reader the nature and the extent of the work performed.

The SRB has not created a template for the Report of Factual Findings to be prepared by the auditor, but has provided in Annex II of this document a list of minimum requirements for the report based on the illustrated example in *Appendix 2 of the International Standard on Related Services (ISRS) 4400 (revised) on Engagement to Perform Agreed-upon Procedures Regarding Financial Information.*
