(1) The template shall include information on all institutions and not only on those with market risk positions.

(2) Ratio of the total risk exposure amount for position, foreign exchange and commodities risks as defined in point (i) of point (b), points (i) and (iii) of point (c) of Articles 92(3) of CRR and point (b) of Article 92(4) of CRR to the total risk exposure amount as defined in Articles 92(3), 95, 96 and 98 of CRR (in %).

(3) If an institution uses more than one approach, it shall be counted in each of these approaches. Hence, the sum of the percentages reported may be higher than 100%, but also lower than 100% as entities with small trading portfolio are not obliged to determine market risk.
