It is an offence, under Section 9 of the IIA, for a company registered in the State, or any other person operating in the State, to act as an investment business firm or to hold themselves out to be an investment business firm, in the State or outside the State, unless that person is acting under the terms of a valid authorisation.

Mortgage Intermediary under the CCA

Section 116A of the CCA provides for persons that hold an authorisation under the CMCAR to engage in the business of being a mortgage intermediary without the need for authorisation under the CCA.

A “mortgage intermediary” means a person (other than a mortgage lender or credit institution) who, in return for commission or some other form of consideration –

- (a) arranges, or offers to arrange, for a mortgage lender to provide a consumer with a housing loan, or

PART 4 – Criteria for Assessing Applicants

The information and documentation that must accompany an application for authorisation as a retail intermediary is set out in the application form.

The principal areas assessed by the Central Bank in considering the information and documentation submitted with the application form to seek authorisation as a retail intermediary include:

- Proposed regulated activities;
- Structure and Organisation of the applicant (including substance and 'mind and management' assessment);
 - Fitness and probity of proposed Pre-Approval Controlled Function role holders;
- Governance and staffing;
- Financial information and solvency;
- Professional indemnity insurance (PII);
- Minimum competency requirements;
- Qualifying shareholders; and
- Regulatory Background (where applicable).

The requirements in respect of each of the above areas are set out in the application form.

An authorisation as a retail intermediary will only be granted to persons established in the State.

Each applicant seeking authorisation must satisfy the Central Bank that it can meet the authorisation requirements set out in the IIA and/or IDR and/or CMCAR and/or CCA, as appropriate. In fulfilling its statutory role in this regard, the Central Bank adopts a robust, structured and risk based process that seeks to ensure that only those applicants that demonstrate compliance with the relevant authorisation requirements are authorised.

The Central Bank seeks to process each application as expeditiously as possible while meeting its obligation to operate a rigorous and effective gatekeeper function. It aims to ensure that the application process is facilitative and accessible from the perspective of applicants and, importantly, that applicants have clarity with regard to the process, its requirements and timelines. See [here](#) for more details.

PART 5 – Making an Application Submission

In advance of submitting the information and documentation set out in the application form to seek authorisation as a retail intermediary, the applicant should satisfy itself that:

1. Scope:

- It has considered its proposed business model having regard to the relevant legislation and it has determined that it requires authorisation pursuant to the IIA and/or IDR and/or CMCAR and/or CCA, as appropriate; and
- It has considered the criteria to be satisfied to complete the application form and it has determined that it is appropriate for it to complete the application form.

2. Compliance:

- It can comply with the authorisation requirements set out in the IIA and/or IDR and/or CMCAR and/or CCA, as appropriate; ○ It is capable of complying with the authorisation requirements and legislative, regulatory and supervisory requirements applicable to a retail intermediary on an on-going basis; and
- It has read this guidance note and has taken the information provided therein into consideration when completing the application form.

An applicant should not submit an application for authorisation to the Central Bank where it has not determined, with reasonable certainty, the scope of its proposed activities and its proposed business and operational models. There should be no significant changes made to the application submitted during the course of the application process. Where such significant changes are made, a new application submission may be required or the application may be taken outside the relevant authorisation service standards. The application is expected to represent the proposed activities of the applicant for the first 12 months of operation post authorisation.

Applicants are advised to seek independent legal advice if they are unsure as to whether their proposed activities require authorisation pursuant to the IIA and/or IDR and/or CMCAR and/or CCA, as appropriate, or if they are unsure as to how they should comply with the relevant authorisation requirements and all relevant legislative, regulatory and supervisory requirements on an on-going basis. If, having received and considered such legal advice, applicants have any doubt about their status, they are advised to submit an application for authorisation.

Documentation required to make an Application Submission

An applicant should submit the following documentation, which should be **fully completed**:

1. An [Application Form for Authorisation as a Retail Intermediary – A FORM](#) (including the specific information/documentation set out therein);
2. Individual Questionnaires in respect of all proposed PCF role holders (when requested by the Central Bank to do so); and
3. Vetting Invitation Form (including proof of identity) and Vetting Application Form (where relevant and when requested by the Central Bank to do so).

Summary of Key Stages of the Application Process

1. Having determined that its proposed activities require authorisation by the Central Bank under the IIA and/or IDR and/or CMCAR and/or CCA, as appropriate, the applicant must be in a position to provide definite proposals as to how it will meet the relevant authorisation and regulatory requirements.

2. The applicant must ensure that **all** the information and documentation set out in the application form is submitted. **Where an incomplete application is submitted the applicant will be advised that the application does not contain sufficient material to be progressed to the next stage of the application process.** Upon receipt of a complete submission, the applicant must register for the Central Bank's Portal, where required, to facilitate the submission of IQs via the Portal.
3. The applicant will need to ensure that all relevant individuals proposed to hold a PCF role in the applicant complete Fitness and Probity IQs – more information [here](#). IQs must be submitted electronically via the Central Bank's Portal by all proposed PCF role holders. The applicant must ensure that **all** the information and documentation set out in the IQ is submitted by all proposed PCF role holders in order that fully completed IQs are deemed to have been received.
4. Where the applicant is a Sole Trader or a Company with a single Director, it will be requested to complete Garda Vetting Forms. The Sole Trader or single Director will be required to submit a Vetting Invitation Form (including proof of identity) and a Vetting Application Form. On receipt of a fully completed Vetting Invitation Form (including proof of identity), the applicant will be issued an email with a link inviting it to complete a Vetting Application Form on the Garda eVetting portal. Please see [here](#) and in relevant section of '[Completing and Submitting an Individual Questionnaire](#)' for guidance on the Vetting Invitation Form, the Vetting Application Form and the required certification and proof of identity documents. If the applicant has any queries in respect of the eVetting process it can contact the Regulatory Transactions Division of the Central Bank, see [here](#) for contact details.
5. The Central Bank will assess whether the IQs, Vetting Invitation Form and Vetting Application Form (where relevant) have been fully completed and that acceptable certified proof of identity has been provided. **The application submission will only progress to the assessment phase of the application process where all IQs and Vetting Invitation Form (including proof of identity) and Vetting Application Form (where relevant) have been provided. Where there is a delay or omission in the provision of IQs or Garda Vetting documentation, this will cause a significant delay to the application process.**
6. Where all the required information and documentation has not been provided, the applicant will be informed that the application will not be progressed until the outstanding information and documentation has been received. Any amendments made to the application submission by the applicant during the application process will require an updated signed Declaration to be submitted by the applicant.
7. The Central Bank completes an assessment of the application submission and may issue detailed comments and/or seek additional information for the purposes of assessing and reaching a determination in respect of the application. The applicant is provided with an opportunity to address the comments and requests issued by the Central Bank in a revised application submission. The Central Bank will assess these subsequent application submission(s) and notify the applicant of its assessment and next steps. The applicant is provided with a further opportunity to address any concerns (if any) arising at this stage in the process. The Central Bank will notify the applicant of its decision in respect of the application submission. The Central Bank **will only grant an authorisation to an applicant if it is satisfied that the applicant has demonstrated that it meets the relevant authorisation requirements.**
8. The Central Bank will select a sample of applications and conduct an assessment interview with a proposed PCF role holder(s) of the applicant before deciding to grant an authorisation. Where specific concerns arise on foot of an assessment interview, a specific interview will be conducted and the application will fall outside the scope of the Central Bank's service standard in respect of the assessment phase of the application process. However, such applications will continue to be progressed as expeditiously as possible. Assessment and/or specific interviews will also be conducted in respect of applications not selected by the Central Bank where specific fitness and probity related concerns arise.
9. Further details about the different stages of the application process and the Central Bank's authorisation service standards can be found on the [Central Bank's website](#).

11. **Information provided to the Central Bank by an applicant in support of its application for authorisation must be accurate and complete. Applicants should note that the IIA, IDR, CMCAR and CCA provide that the Central Bank may refuse an application for authorisation if the applicant has failed to satisfy the Central Bank that the applicant is, or will be, able to properly fulfil the obligations imposed by or under the IIA, IDR, CMCAR and CCA or any other designated enactment or designated statutory instrument.**
12. PART 7 – Guidance on Completing an Application Form

This section provides guidance to applicants to assist them when answering some of the questions set out in the application form. **The numbering sequence set out in the table below follows that of the questions set out in the application form.**

Applicants should ensure that **ALL** relevant questions set out in the application form are answered succinctly and fully. The application submission should include information relating to the applicant’s proposed activities for the first 12 months of the provision of regulated activities.

Question	Guidance
Part 2 of Application Form – Applicability of this Application Form	
2.1	Having assessed the relevant legislation and the scope of the activities the applicant proposes to undertake, the applicant should select the relevant authorisation(s) it requires.
2.1(c)	A mortgage credit intermediary applicant that proposes to act on behalf of, and under the full and unconditional responsibility of only one creditor or only one Group, is considered a tied mortgage credit intermediary. Where the applicant satisfies the criteria for using the application form as set out in Part 2 of the application form, the relevant creditor should complete the application form in addition to the Creditor Declaration Form . When a creditor is completing the application form, all references to the applicant therein should be taken to be to the tied mortgage credit intermediary. The Declaration in Part 8 of the application form should be signed by both the creditor and the tied mortgage credit intermediary (see more details in relation to completing the Declaration in the relevant section below).
2.1(d)	In line with Section 116A of the CCA, an applicant seeking authorisation as a mortgage credit intermediary under the CMCAR that is also seeking to engage in activities falling within the scope of the CCA, does not need to seek a separate authorisation under the CCA. An authorisation granted under the CMCAR will permit the applicant to engage in activities falling within the scope of the CCA without the need to seek a separate authorisation under the CCA. However, if granted an authorisation under the CMCAR, the applicant is required to comply with the regulatory requirements set out in the CCA if it engages in activities falling within the scope of the CCA.
2.2 – 2.7	Where any of questions 2.2-2.7 have been answered ‘No’, the applicant should not complete the ‘Application Form for Authorisation as a Retail Intermediary - A FORM’ as the applicant does not satisfy the criteria to do so . The applicant should consider whether it meets the criteria to complete the ‘Application Form for Authorisation as a Retail Intermediary - B FORM’ which can found here . Any queries in relation to this application form should be sent to RIAuthorisations@centralbank.ie .
2.3	An MGA includes an entity appointed by an insurance undertaking to manage all or part of the insurance undertaking’s business and /or products in a particular jurisdiction or geographical region, that may conduct functions such as binding the insurance undertaking into contracts, underwriting and pricing, settling claims, and appointing retail agents. <i>Note: This is a general description of an MGA, the scope of the business it conducts on behalf of the insurance undertaking and the typical functions performed. It is not intended to be definitive. Consequently, the functions included in the general description of an MGA do not constitute an exhaustive list of all functions that an MGA may perform. Equally, not all of the functions included in the general description of an MGA need to be carried out by a firm for it to be considered an MGA.</i>

2.7	If question 2.7 has been answered 'No', the applicant should not complete the application form. If an investment business firm wishes to apply to the Central Bank to appoint a tied agent under the IIA, it must complete the Application Form for the Appointment of Tied Agents . If an insurance or reinsurance undertaking or other intermediary wishes to apply to the Central Bank to appoint a tied insurance intermediary under the IDR, it must complete the Application Form for the Appointment of Tied Insurance Intermediaries .
------------	---

3.1	The legal name must be the applicant’s full legal name at the time of making an application submission. For incorporated applicants, this should be the legal name on the applicant’s constitutional document(s) and the name registered with the CRO. For partnership applicants, this name should be the names of each of the partners or a name defined in the applicant’s Partnership Agreement. For sole trader applicants, this name should be the individual’s name.
3.3	The legal status of the applicant should describe the corporate status of the applicant entity which can include the following – Private Company Limited by Shares, Designated Activity Company, Private Company Limited by Guarantee, Unlimited Company, Public Limited Company, Partnership or Sole Trader.
3.4	This name must be the registered trading name(s) that the applicant will use in relation to its regulated and unregulated services. The relevant CRO Business Name Registration Number must also be provided for each trading name.
3.5	<p>An applicant’s head office, registered office (where required) and principal place of business must be set out in the application form and, in any event prior to authorisation, and must be located in the State. What constitutes a “head office”/“principal place of business” is a matter to be determined given the particular circumstances of each case. In general, the Central Bank interprets “head office”/“principal place of business” to mean the location of the mind and management of the applicant and the place where the day-to-day decisions about the direction of the applicant’s business are taken. While the onus of meeting the statutory requirements and satisfying the Central Bank that adequate and effective control of an applicant rests in Ireland (not abroad) lies with the applicant, some guidance on what the Central Bank would expect to see is set out below.</p> <p>This is not intended to be a ‘formula’ for meeting the “head office”/“principal place of business” requirement. However, it does provide an indication of what the Central Bank will expect to see in this regard. The Central Bank will expect decision making at Board and Committee level to take place in the State. In addition, to ensure the central management is located within the “head office”/“principal place of business”, its functions must include:</p> <ul style="list-style-type: none"> ➤ Financial Control; ➤ Legal and Compliance; and ➤ Risk Management. <p>It follows that there should be a significant senior management presence (within the applicant) in the State to ensure that full authority and effective control of the applicant rests within the “head office”/“principal place of business”.</p>

3.6, 3.7	Where the applicant proposes to establish other places of business other than its principal place of business, either on the date of authorisation or within the first 12 months of authorisation, it should provide details of the relevant locations of the other places of business and the activities proposed to be conducted.
3.8, 3.9	Where the applicant intends to establish a website, either on the date of authorisation or within the first 12 months of authorisation, it must ensure it complies with the relevant obligations in relation to regulatory disclosures and segregation of regulated/unregulated activities as set out in the Consumer Protection Code 2012 and the IIA and/or IDR and/or CMCAR and/or CCA (where relevant).
3.10, 3.13	Where the applicant proposes a third party to accept service of correspondence, details of a senior member of the applicant (i.e. director/sole trader/partner/senior manager) must also be provided to also receive such correspondence. The Central Bank will not liaise solely with a third party in

	<p>relation to an application submission. All correspondence in respect of an application submission will be sent by the Central Bank directly to the senior member of the applicant, and where appropriate, to any third party identified by the applicant to accept service of any such correspondence.</p> <p>Applicants should be aware that they remain responsible for any information provided, or the failure to provide information, in respect of an application submission where they engage third parties to complete such tasks.</p> <p>A senior member of the applicant (i.e. director/sole trader/partner/senior manager) must be provided to receive login details for the purposes of submitting IQs in respect of proposed PCF role holders in the applicant via the Portal.</p>
3.11, 3.12	Where the applicant has an existing Portal Administrator, that individual's details should be provided in response to question 3.10. Where there is no active existing Portal Administrator, the applicant should contact onlinereturns@centralbank.ie

CMCAR Application	

<p>5.3.1</p>	<p>The applicant should ensure that it has reviewed the scope of the CMCAR having regard to its proposed activities such that it has determined whether its proposed activities fall within the scope of the activities listed in 5.3.1(a) to (d).</p> <p>If the applicant is intending to act as a mortgage credit intermediary under the full and unconditional responsibility of <u>only one</u> creditor or only one Group (i.e., a tied mortgage credit intermediary), it must be authorised through that creditor. The Declaration in Part 8 of the application form should be signed by both the creditor and the tied mortgage credit intermediary (see more details in relation to completing the Declaration in the relevant section below).</p> <p>If the applicant also intends to act as a mortgage intermediary under the CCA, it will not be required to seek a separate authorisation under the CCA where it receives an authorisation under the CMCAR. Where granted an authorisation under the CMCAR, the applicant is required to comply with the regulatory requirements set out in the CCA if it engages in activities falling within the scope of the CCA.</p>
<p>5.3.3</p>	<p>The applicant must provide the relevant details for each undertaking with whom the applicant intends to hold an appointment to act as a mortgage credit intermediary.</p>

<p>CCA Application</p>	

5.4.1	<p>The applicant should ensure that it has reviewed the scope of the CCA having regard to its proposed activities such that it has determined whether its proposed activities fall within the scope of the activities listed in 5.4.1(a) and/or (b).</p> <p>The applicant is <u>not</u> required to seek and obtain a separate authorisation under the CCA if it is seeking and is granted an authorisation under the CMCAR. 5.4.3	<p>The applicant must provide the relevant details for each undertaking with whom the applicant intends to hold an appointment to act as a mortgage intermediary.</p>

The Letter of Appointment can include a conditional clause that the applicant can only commence its mortgage intermediary activities thereunder on receipt of an authorisation from the Central Bank by the applicant. The applicant cannot undertake any mortgage intermediary activities until it has received the relevant authorisation under the CCA.</p> <p>A Certificate of Authorisation issued by the Central Bank at authorisation date will only include details of those appointments where the Central Bank has received a completed Letter of Appointment from the applicant.</p>

<p>Part 6 of Application Form – Business Plan</p>	
6.1.2	<p>The applicant’s business plan for the first 12 months after its expected authorisation date should <u>NOT</u> be submitted with the application form, however it must be available on request by the Central Bank.</p> <p>The business plan should set out the applicant’s proposed business model (including the key resources and infrastructure - technical or otherwise - to support the business model), proposed activities (types of products and services), estimated client numbers, projected financial position (including details of its profit and loss and balance sheet) and its strategy to grow and develop its business in a manner that ensures that it acts in the best interests of its clients at all times such that conduct and consumer protection issues do not arise.</p>
	<p>By answering ‘Yes’ to this question, the applicant is confirming that the business plan is clearly documented and has been approved by its board of directors, its partners or the sole trader and is in place at the date of authorisation and that it will be reviewed, maintained and updated as required on an on-going basis. The applicant must maintain documentary evidence such that it is in a position to submit the business plan to the Central Bank if requested to do so.</p>

<p>6.1.3</p>	<p>Clients at authorisation date may be those that the applicant is providing services to under an existing authorisation or those that the applicant expects to be in place at authorisation date arising from e.g. a transfer of a book of business to the applicant.</p> <p>“Consumer” means any of the following:</p> <ul style="list-style-type: none"> a) a <i>person or group of persons</i>, but not an incorporated body with an annual turnover in excess of €3 million in the previous financial year (for the avoidance of doubt a <i>group of persons</i> includes partnerships and other unincorporated bodies such as clubs, charities and trusts, not consisting entirely of bodies corporate); or b) incorporated bodies having an annual turnover of €3 million or less in the previous financial year (provided that such body shall not be a member of a <i>group</i> of companies having a combined turnover greater than the said €3 million). <p>The figures provided should align with the detailed business plan and projections of the applicant. If the applicant intends to undertake regulated activities across all distribution channels should be included.</p> <p>Two figures are required in each cell. For 6.1.3(a), the total number of clients and the number of Irish clients that meet the definition of a consumer is required. For 6.1.3(b), the total number of clients and the number of Irish clients that do meet the definition of a consumer is required.</p>
<p>6.1.4</p>	<p>The current year’s figures should represent the year to date. The figures projected for years 1, 2 and 3 should align with the detailed business plan and projections of the applicant.</p>
<p>6.1.7</p>	<p>Applicants are required to confirm that they will be in a position to manage the risk that they might not be in a position to operate within the bandwidth of their financial projections. For example:</p> <ul style="list-style-type: none"> ➤ if the applicant is reliant on a particular client(s); ➤ if there is a risk that the applicant’s business might not grow as quickly as projected and that profitability will be impacted; and ➤ if there is a risk that any particular event could impact upon the applicant’s viability or its ability to meet its solvency requirement (either long or short term). <p>The Central Bank expects that these risks will be monitored and mitigated by the applicant on an on-going basis. By answering ‘Yes’ to this question, the applicant is confirming that it will monitor and mitigate these risks on an on-going basis. The applicant must maintain documentary evidence such that it is in a position to demonstrate that it has done so if requested by the Central Bank to do so.</p>
<p>6.1.8, 6.1.9</p>	<p>Qualified Opinion</p> <p>The auditor shall express a qualified opinion when:</p> <p>(a) The auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are material, but not pervasive, to the financial statements; or</p>

	<p>(b) The auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, but the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be material but not pervasive.</p> <p>Adverse Opinion</p> <p>The auditor shall express an adverse opinion when the auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are both material and pervasive to the financial statements.</p> <p>Disclaimer of Opinion</p> <p>The auditor shall disclaim an opinion when the auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive.</p> <p>The auditor shall disclaim an opinion when, in extremely rare circumstances involving multiple uncertainties, the auditor concludes that, notwithstanding having obtained sufficient appropriate audit evidence regarding each of the individual uncertainties, it is not possible to form an opinion on the financial statements due to the potential interaction of the uncertainties and their possible cumulative effect on the financial statements.</p>
6.1.10	The applicant’s accounting year-end date will determine the date when its annual reporting to the Central Bank is due, if authorised, therefore the applicant must ensure this date is accurate and that the Central Bank is informed in a timely manner should this date change in the future.
6.2.2	<p>The applicant should provide a clear description of the unregulated activities it is proposing to undertake or is currently undertaking (which do not fall within the scope of the IIA/IDR/CMCAR/CCA or any other financial services legislation falling within the regulatory remit of the Central Bank or another regulatory authority), including details of the products/services, the resourcing in place to support the provision of these activities, and the nature and scale of these activities.</p> <p>The applicant should also provide a clear description of the regulated activities it is proposing to undertake or is currently undertaking (which do not fall within the scope of the IIA/IDR/CMCAR/CCA but within the scope of other financial services legislation falling within the regulatory remit of the Central Bank or another regulatory authority), identifying the relevant legislation, details of the products/services, the resourcing in place to support the provision of these activities, and the nature and scale of these activities.</p>
<p>Part 7 of Application Form – Programme of Operations</p>	

7.1.1, 7.1.6	<p>The Central Bank expects all applicants to have adequate and sufficient governance and staff resourcing arrangements in place, that appropriately reflect the nature, scale and complexity of their activities, to demonstrate that adequate and effective control of the applicant rests in the State (i.e., the substance and mind and management of the applicant is located in the State and day to day decisions in respect of the applicant’s business are made in the State) and the applicant is capable of being effectively supervised by the Central Bank.</p> <p>While the onus of meeting the statutory requirements and satisfying the Central Bank that adequate and effective control of an applicant rests in Ireland (not abroad) lies with the applicant, some guidance on what the Central Bank would expect to see is set out in 3.5 above.</p> <p>As set out in that section, the Central Bank will expect decision making at Board and Committee level to take place in the State. In addition, to ensure the central management is located within the “head office”/“principal place of business”, its functions must include:</p> <ul style="list-style-type: none"> ➤ Financial Control; ➤ Legal and Compliance; and
--------------	---

	<ul style="list-style-type: none"> ➤ Risk Management. <p>It follows that there should be a significant senior management presence (within the applicant) in the State to ensure that full authority and effective control of the applicant rests within the “head office”/“principal place of business”.</p> <p>The Central Bank requires that applicants propose an adequate and sufficient level of governance and staff resourcing arrangements that appropriately reflect the nature, scale and complexity of their proposed activities within the first 12 months of authorisation. In practice, if an applicant expects to reach a significant scale in the first 12 months of operation, for example €1m revenue or provision of services to 2,000 consumers, its proposed governance and staff resourcing arrangements should appropriately reflect that scale of business. This may be addressed by having multiple executive directors, a balance of executive and non-executive directors, independent directors, additional senior management and PCF level resources and/or other appropriate governance structures.</p> <p>The Central Bank requires that the governance and staff resource arrangements are kept under review on an on-going basis such that the applicant is satisfied that they continue to reflect the nature, scale and complexity of the business (i.e. as the business grows it is expected that the applicant will review and enhance the governance and staff resourcing arrangements accordingly).</p> <p>The applicant should ensure that it has assessed the adequacy of its proposed governance and staff resourcing arrangements, having regard to its nature, scale and complexity, and determined the appropriate governance arrangements and internal systems, controls and procedures to put in place to ensure that it complies with its legal and regulatory obligations on the date of authorisation and on an on-going basis.</p> <p>By answering ‘Yes’ to these questions, the applicant is confirming that the relevant governance and staff resourcing arrangements and internal systems, controls and procedures are clearly documented and in place at the date of authorisation and that they will be reviewed, maintained and updated as required on an on-going basis to reflect changes to the nature, scale and complexity of the business. The applicant must maintain documentary evidence such that it is in a position to demonstrate its compliance with the relevant requirements referred to where requested to do so by the Central Bank.</p>

7.1.2, 7.1.3	A calculation of full-time equivalents (FTE) requires that staff and executive directors dedicated to the regulated business full-time equate to 1 FTE. Part-time staff and executive directors are assessed with regard to the portion of the time they dedicate to the applicant’s regulated business from the approximate number of working days each year i.e. if a member of staff will be dedicated to the regulated business for 50% of the working days each year (estimate 220 working days each year) they should be represented as 0.5 FTE in the calculation of the applicant’s FTEs.
7.1.6	The Central Bank expects the Board (or other equivalent governance forums for non-corporates) of applicants to typically meet at least quarterly, to have a quorum of the majority of directors (or equivalent for non-corporates), and to have a clear and documented agenda for all governance meetings, which at a minimum should include key items relating to the functioning of the applicant’s business covering areas such as governance, compliance (including conduct and consumer protection risk), finance and operational matters.
7.1.7	A clear record of Board meetings (or other similar governance forums for non-corporates) held by the applicant should be maintained in a durable format and should clearly describe the discussions held by and the decisions made by the Board (or other equivalent governance forums for noncorporates).
7.1.8	The applicant should consult the list of PCFs here to assess and determine what PCF roles individuals will be holding in the applicant and should also review and familiarise themselves with

	<p>the Fitness and Probity Standards applying to those PCF roles. The applicant should ensure that this assessment is robustly completed as delays in identifying PCF role holders or the selection of incorrect PCF roles will substantially delay applications or mean that the application is taken outside the relevant service standards.</p> <p>Where the applicant is unsure as to whether it should apply for a particular PCF role, it should seek independent legal advice. If, having received and considered such legal advice, the applicant is still unsure, it is advised to submit an IQ via the Portal for the relevant PCF role.</p> <p>Applicants are responsible for ensuring that staff performing Pre-Approval Controlled Functions are pre-approved by the Central Bank and meet the Fitness and Probity Standards both on appointment to such functions and on an on-going basis. Applicants are also responsible for ensuring that staff performing Controlled Functions meet the Fitness and Probity Standards both on appointment to such functions and on an on-going basis.</p>

<p>7.1.9</p>	<p>All persons proposing to hold PCF roles in the applicant must submit an IQ which is accessible via the Central Bank’s Portal (the Portal). Users can register for the Portal via the Central Bank website.</p> <p>The applicant must register for the Portal and set up a password and second factor authentication to gain access. Guidance on how to register for the Portal can be found here. If the applicant has any queries regarding the Portal please contact RBSD at onlinereturns@centralbank.ie or on (01) 2244545. Please contact Fitnessandprobity@centralbank.ie or on (01) 224 5333 for queries relating to the IQ.</p> <p>Where the applicant already has an existing Portal Administrator, the name of that individual should be provided in response to question 3.10 b). Where there is no existing Portal Administrator, the applicant should contact onlinereturns@centralbank.ie.</p> <p>To ensure that applications can be decided upon in a timely manner, the applicant must ensure that any queries received regarding the information provided in IQs are responded to comprehensively and in a timely manner. Individuals required to complete IQs should ensure that the referees they have provided are prepared to provide references in a timely manner.</p>
<p>7.1.12, 7.1.13</p>	<p>The applicant should identify anyone in a position to exert significant influence over the applicant or the management of the applicant. This may include shareholders, advisors or financiers.</p> <p>Those in a position to exercise a significant influence over the applicant or the management of the applicant may be acting in concert with other parties. Where this arises, details (i.e., identity of those parties, their relationship to the applicant, the nature of their influence) must be provided.</p>
<p>7.2.1</p>	<p>The Minimum Competency Code 2017 (MCC) specifies certain minimum competencies that persons falling within the scope of this Code must comply with when performing certain controlled functions. The Minimum Competency Regulations 2017 (MCR), associated with the MCC, impose certain obligations on regulated firms under Section 48 of the Central Bank (Supervision and Enforcements) Act 2013.</p> <p>The applicant should ensure that it has assessed the requirements set out in the MCC and MCR and determined the appropriate governance arrangements and internal systems, controls and procedures to put in place to ensure that it complies with those requirements on the date of authorisation and on an on-going basis.</p> <p>By answering ‘Yes’ to this question, the applicant is confirming that the relevant governance arrangements and internal systems, controls and procedures are clearly documented and in place at the date of authorisation and that they will be reviewed, maintained and updated as required on an on-going basis. The applicant must maintain documentary evidence such that it is in a</p>
	<p>position to demonstrate its compliance with the relevant requirements of the MCC and MCR where requested to do so by the Central Bank.</p>

<p>7.2.2 - 7.2.5</p>	<p>It is expected that applicants (apart from applicants engaging in execution only activities and reinsurance distribution under the IDR) will have individuals engaging in the activities set out below and therefore the names and roles of these individuals should be provided:</p> <ul style="list-style-type: none"> • providing advice or information to consumers on retail financial products or arranging or offering to arrange retail financial products for consumers, including any amendments to insurance cover; and • engaging in acting for or on behalf of the applicant in the direct management or supervision of those persons who will act for or on behalf of the applicant in providing advice or information to consumers about retail financial products or who will arrange or offer to arrange retail financial products for consumers or who will carry out one or more specified functions.
